2024世界内燃机大会论文

|                                    |                   |
|------------------------------------|-------------------|
| 发动机燃烧特征参数逐循环实时计算方法实现与验证 .....      |                   |
| ..... 安威威,张 慧,谷 峰,马展鹏,苗玉松,陆慧慧( 1 ) |                   |
| 船用发动机甲醇-柴油同轴分层喷射燃烧排放特性 .....       | 王 洋,孟令超,刘 龙( 8 )  |
| RTX7-52DF发动机试车台轴系扭转振动 .....        | 李文达,吕秉琳,袁 超( 14 ) |
| 曲轴圆角动态疲劳分析及影响因素 .....              | 康纳新,李文达,牛军军( 20 ) |

“双碳”动力

|                                  |                       |
|----------------------------------|-----------------------|
| “蛋黄蛋壳”结构及表面修饰的低铂合金催化剂氧还原性能 ..... | 陈 浩,厉宸威,魏光华,章俊良( 25 ) |
|----------------------------------|-----------------------|

结构与可靠性

|                              |                           |
|------------------------------|---------------------------|
| 基于模型降阶的柴油机连杆应力实时重构方法 .....   | 何肇玮,金江善,秦慈伟,孔 晨( 34 )     |
| 组合式活塞顶-裙结合面微动磨损试验 .....      | 程佳琪,梁 刚,李丽婷,王春辉,徐雨轩( 41 ) |
| 柴油机曲轴向中间联轴节供油的设计 .....       | 马俊杰( 49 )                 |
| 船用柴油机排气管路连接V形箍带式卡箍密封机理 ..... | 金 爽,闫 萍,吴 羽,蒋禹奇,王先锋( 53 ) |

广告目次

|                      |  |
|----------------------|--|
| 封一 《柴油机》杂志公益广告       |  |
| 封二 重庆清平机械有限责任公司      |  |
| 封三 中国船舶集团有限公司第七一一研究所 |  |

## Contents

### 2024 WICE Papers

|                                                                                                                            |                                                                          |
|----------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------|
| Realization and Verification of Real-Time Calculation Method of Engine Combustion Characteristic Parameters by Cycle ..... | AN Weiwei, ZHANG Hui, GU Feng, MA Zhanpeng, MIAO Yusong, LU Huihui ( 1 ) |
| Emission Characterization of Coaxial Stratified Injection Combustion of Methanol-Diesel in Marine Engine .....             | WANG Yang, MENG Lingchao, LIU Long ( 8 )                                 |
| Torsional Vibration of RTX7-52DF Engine Testbed Shafting .....                                                             | LI Wenda, LYU Binglin, YUAN Chao ( 14 )                                  |
| Dynamic Fatigue Analysis and Influencing Factors of Crankshaft Fillets .....                                               | KANG Naxin, LI Wenda, NIU Junjun ( 20 )                                  |

### Low-Carbon Power System

|                                                                                                                 |                                                           |
|-----------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------|
| “Yolk-Shell” Structure and Surface-Modified Low-Platinum Alloy Catalysts for Oxygen Reduction Performance ..... | CHEN Hao, LI Chenwei, WEI Guanghua, ZHANG Junliang ( 25 ) |
|-----------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------|

### Construction and Reliability

|                                                                                                          |                                                                    |
|----------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------|
| A Real-Time Reconstruction Method of Diesel Connecting Rod Stress Based on Model Reduction .....         | HE Zhaowei, JIN Jiangshan, QIN Ciwei, KONG Chen ( 34 )             |
| Experiments of the Fretting Wear of the Contact Surface Between Combined Piston Crown and Skirt .....    | CHENG Jiaqi, LIANG Gang, LI Liting, WANG Chunhui, XU Yuxuan ( 41 ) |
| Design of Lubricating Oil Supply from Diesel Engine Crankshaft to Intermediate Coupling .....            | MA Junjie ( 49 )                                                   |
| Sealing Mechanism of the V-Shaped Band Clamp Connecting with Marine Diesel Engine Exhaust Pipeline ..... | JIN Shuang, YAN Ping, WU Yu, JIANG Yuqi, WANG Xianfeng ( 53 )      |
